

The Earth Cube™

The New Environmental Revolution!

The Earth Cube™ is a new motivational strategy for more effectively living out key principles supporting a healthy and sustainable planet. Its objective is to encourage personal and collective attitude transformation through person-centered, action-oriented responses to the needs of the environment. It is based on a lifestyle encouraged by the EcoOne Project (www.ecoone.org), an international ecological cultural initiative present in over 180 countries. How does The Earth Cube™ work? Pick it up each day and roll it, then read the side on top, find a way to live those words that day, and share the results with others.
